| | Helen Knill | 519-753-2947 |

ETIQUETTE

Lawn Bowling is simply defined as "good sportsmanship". The real enjoyment in bowls lies in the trying and that is why, top player or novice, so many people get so much fun out of playing and why so many more are taking it up each year. In order to get the full enjoyment out of bowls you have to learn many things, but one of the most important is tolerance. All through your career you will find that tolerance is a keynote, not only for enjoyment, but also for success. It is a nice gesture to commend a good bowl of your opponent, and of a player on your own team. You will find that they will do the same for you. Admit a "fluke" in good spirit. Dress properly for tournament play. ***It is not good etiquette to follow your bowl as it tends to obstruct your opponent's view of the run of the bowl.** Do not cross in back of the player as they are about to deliver their bowl. Bowls must not be dropped or thrown on the greens. No heels to be worn on the greens.
